

TEMPTATION PUZZLE

Instructions: This activity will help you think more than normal of words that are related to temptation behavior. Fill in the squares using the word list below. Here's a clue to help you solve the puzzle: Begin by positioning the longest word in the longest row of squares, and then work your way from there. Also, place a check-mark in the box next to each word on the list as you find where they fit in the puzzle, to know which ones are left to be placed. If possible, use a pencil, so that you can easily change errors. Now let's think about building resistance to temptations as you spend thought time with each word!
